TRAVELEX

A cautionary tale of ransomware's devastating impact

REVIL LAUNCHED A SHOCKINGLY SUCCESSFUL ATTACK

The cybercrime syndicate claimed:

- The entire network had been encrypted
- >5GB of sensitive customer data had been exfiltrated
- Backup files had been deleted

TRAVELEX WAS WOEFULLY UNPREPARED

The foreign currency exchange:

- Kept IT systems & websites offline for >3 weeks
- Paid $2.3M in Bitcoin

IS IT ANY WONDER CONSUMERS ARE WARY?

70% of consumers today don't believe businesses are doing enough to secure their data.

They're not wrong.

RANSOMWARE-RELATED DATA LOSS IS PREVENTABLE

Powered by ransomware protection technologies, Travelex could have reverted to a clean, ransomware–free version of its data.
